

# Restorative Conference Questions

## Conference Guidelines

1. Everyone has a turn and everyone listens (if using a talking piece: everyone respects the talking piece).
2. Speak from the heart: your truth, your perspective, your experience.
3. Listen from the heart even if you disagree with what the other person says.
4. Say just enough: without feeling rushed, stay on topic and be aware of how long you are speaking.

## Restorative Questions:

1. From your point of view, what happened?
2. How were you feeling at the time?
3. What were you thinking about at the time?
4. What have you thought about since the incident?
5. Who has been affected by what happened and how?
6. What about this has been the hardest for you?
7. What do you think needs to be done to make things right? How can the harm that was done be repaired?
8. What can we do to support you?
9. What might you do differently if this happens again?
